ELD Solution on an Industry-Leading Platform

Geotab's electronic logging solution offers benefits for both drivers and fleet managers. Drivers can use Geotab Drive to easily record Hours of Service status and complete vehicle inspections from their tablet or smartphone. The intuitive app guides them through the process step-by-step. Managers can stay up-to-date on fleet compliance with real-time access to information in MyGeotab, including violation alerts, and detailed reports on driver logs and remaining hours.

ELDs provide many benefits to carriers and drivers:

- Simplify compliance
- Increase productivity and efficiency
- Improve driver safety
- Reduce admin time and costs

- Track arrival and departure times and delivery status
- Increase accuracy of records
- Improve communication with drivers
- Increase vehicle uptime with engine fault reporting for proactive vehicle maintenance

A Future-Proof ELD Solution

Geotab goes beyond the ELD mandate requirements by providing you with a secure, open telematics platform that evolves with your business. Build your own custom solutions, or integrate with your transport management system (TMS) - the choice is yours. Choose an ELD solution that gives you more.

* Devices must have a data plan and location services activated.
